

Ajax Ice Waves

After a very successful inaugural season last year, the Ajax Ice Waves Synchronized Skating team took to the ice again on September 8th. Part of the Ajax Skating Club, the Ice Waves program provides skaters, who typically perform their chosen sport as individuals, the opportunity to participate in the sport they love as part of an integrated team. The Ice Waves are coached by Melody Colatosti and Heather Houston and currently have 19 girls participating on the juvenile team and 20 girls on the pre-novice team. The team is looking forward to a great year of practice and competition! For more information visit www.ice-waves.com.
